<b>I</b> .	Section 4: First aid measures			
1.1	must be kept in mental and physical rest. Victim must be sheet with information about substance or mixture with yo Inhalation: Break exposure, move to fresh air protecting th	f both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim kept warm and must not get chilled. Take original container with label or safety dat u in case of medical examination. he victim from cold. Provide medical treatment especially if coughing, shortness of		
	breath or other symptoms persist. When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.			
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention. Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or SDS.			
1.2	Most important symptoms and effects, both acute and del	ayed and if swallowed. It can irritate skin, mucous membranes and eyes.		
1.3	Indication of any immediate medical attention and special	-

6.4	Reference to other sections: See also section 7., 8 and 13	3.		
	Section 7: Handling and storage			
7.1	Measures for safe manipulation:			
7.1.1	Recomendations:			
	a) Workers handeling the product have to get familiar with	health and safety rules for work and have to obey these rules. Secure escape		

	not expose to direct sunlight or other heat sources.	, do not expose to temperature under 0 °C (not even in short term). Do			
740	d) Prevent the contamination of environment, i.e. leak into canalization	n, surface or underground water and soil.			
7.1.2	Instructions for general hygiene of work: a) Do not eat, drink or smoke on work areas.				
	7.0	c) Before entering dining areas, remove contaminated clothing and protective equipment.			
7.2	Conditions for safe storage of substances and mixtures including inco storages in original closed packages in temperatures from +5 to +25 ° Do not expose to direct sunlight or other heat sources. Prevent any co with food, drinks and feed. The product is not a flamable liquid accord	°C, do not expose to temperature under 0 °C (not even in short term). ontact with oxidazing substances, strong acids and bases. Do not store			
7.3	Specific end use: see part 1.2; coating procedure and recomendations				
	documentation.				
8.	Section 8: Exposure controls / personal protection				
8.1	Control parameters:				
	Exposure limits EH40/2005 (WELs):	Not Assigned			
	didecyldimethylammonium chloride (ES: 230-525-2)				
	DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	18,2 mg/m <sup>3</sup>			
	NOAEC (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	54,6 mg/m <sup>3</sup>			
	DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	8,6 mg/kg bw/day			
	NOAEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	103 mg/kg bw/day			
	PNEC aqua (freshwater)	2 μg/L			
	PNEC aqua (marine water)	0,2 μg/L			
	PNEC STP	0,595 mg/L			
	PNEC sediment (freshwater)	2,82 mg/kg sediment dw			
	PNEC sediment (marine water)	0,28 mg/kg sediment dw			
	PNEC soil	1,4 mg/kg soil dw			
8.2	Exposure controls				
		ile working with the product. Contaminated work clothes can be reused ter after use. Do not eat, drink or smoke while working with the product.			
8.2.1	Appropriate engineering controls: Observe the usual precautions to pr	rotect the health and well-ventilated.			
8.2.2	Individual protection measures, such as personal protective equipment:				
	Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.				
	a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.				
	b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.				
	b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, use reparing hand cream.				
	c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).				
	d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.				
8.2.3	Environmental exposure controls: Avoid infiltration of surface and grou				
9.	Section 9: Physical and chemical properties				
9.1.	Information on basic physical and chemical properties				
	a) State	low viscosity liquid			
	b) Color	colourless liquid			
	c) Odour:	characteristic			
	Odor threshold:	Not specified			
	d) Melting/Freezing point (temperature range) (°C):	approximately 0			
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100			

1	f) Complexed bills a	non-flammable liquid
	f) Combustibility:	Not specified
	g) Explosion limints: upper limit (% volume):	Not specified
	lower limit (% volume):	Not specified
	h) Point of ignition:	Not specified
	i) Temperature of self-ignition:	Not specified
	j) Temperature of decomposition (°C):	5,0 - 8,0
	k) pH	
	I) Kinematic viscosity:	Not specified
	m) Solubility (23 °C)	unlimited missibility with water
	- with water:	unlimited miscibility with water
	- with fats:	Not specified
	n) Partition coefficient n - octanol/water:	Not specified
	o) Steam pressure (20 °C):	2,3 kPa
	p) Density and/or relative density (20 °C):	approximately 0,9 - 1,0 g.cm <sup>-3</sup>
	q) Relative viscosity of steam (at °C):	Not specified
0.0	r) Particles characteristics:	Not specified
9.2	Other information:	in not relevant
9.2.1	Information about class of physical hazard:	is not relevant
9.2.2	Other safety characteristics	Not see a 20 and
	Evaporation rate:	Not specified
	Dynamic viscosity:	Not specified
	Explosive properties:	Not specified
	Oxidizing properties:	Not specified
	Time required for biocidal effect:	min. 1 hour after the last layer is applied; effect against algae after 3 days

	OXICITY INFORMATION FOR HAZARDOUS COMPONENTS didecyldimethylammonium chloride (EC: 230-525-2)]:	Toxicity to algae	$\frac{\text{ErC}_{50} = 0,062 \text{ mg/L}}{(\text{growth rate; 72 h})}$ $\frac{\text{NOEC} = 0,013 \text{ mg/L}}{(\text{growth rate; 72 h})}$ $\frac{\text{ErC}_{10} = 0,02 \text{ mg/L}}{(\text{growth rate; 72 h})}$
		Toxicity to fish	$LC_{50} = 0.97 \text{ mg/L (96 h)}$
		Toxicity to water fleas	EC <sub>50</sub> = 0,057 mg/L (48 h)

13.1 Methods of waste management:

a) Appropriate methods of substance, mixture and contaminated packaging disposal: Product remnants and packaging with product remnants must be incinerated in a hazardous waste incinerator or kept at a hazardous waste landfill.

b) Physical / chemical properties that can affect means of waste handling: Liquid mixture is completely miscible with water.

c) Avoidance of disposal through sewer: It is necessary to prevent leakage of both components and hardened mixture into drains.

d) Special precautions for the recommended waste management: Avoid contact with skin and eyes.

	Regulation of the European Parliament and Council Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation			
	and Restriction of Chemicals establishing a European Chemicals Agency, as amended			
	Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended			
	Commision directive (EU) no. 878/2020 Regulation (EU) No. 528/2012 of the European Parliament and of the Council concerning the making available on the market and use of			
	Regulation (EU) No. 528/2012 of the European Parliament and of the Council concerning the making available on the market and use of biocidal products. Note: According to Article 69 letter (i) the following sentence must be stated: <b>"Read attached instructions before use."</b>			
	According to Article 72 Advertising number (1) the following sentence must be stated: "Use biocides safely. Always read the label and			
	product information before use."			
	EH40/2005 Workplace exposure limits (second edition, published 2011). Containing the list of workplace exposure limits for use with the			
	Control of Substances Hazardous to Health Regulations (as a	amended)		
15.2	Assessment chemical safety of mixture:	Were not performed		
16.	Section 16: Other informations			
	Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and			
I	safety as well as recommendation related to ecological matters that are essential to safe usage of the product.			
	a) New edition.			
	b) key or legend for abbreviations and accronyms used in the safety data sheet:			
	$LD_{50}$ The lethal dose for 50 % mortality of the test populations			
	$LC_{50}$ Lethal concentration for 50 % mortality of the test			
	$EC_{50}$ Effective concentration for 50 % mortality of the test			
	$EC_{10}$ Effective concentration for 10 % mortality of the test population relative to a control sample.			
	<ul> <li>Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample.</li> <li>Lethal loading doses of test substance resulting in 50% mortality</li> </ul>			
	LL <sub>50</sub> Lethal loading doses of test substance resulting in	1 00 /0 mortailty		

- EL<sub>50</sub> Effective loading doses of test substance resulting in 50% mortality
- PBT Persistent, bioaccumulative and toxic substances.
- vPvB Very persistent and very bioaccumulative substances.
- DNEL Derived No Effect Level derived concentration of the substance without adverse effects
- DMEL Derived Minimum Effect Level derived minimum level at which the adverse effects
- NOAEL No Observed Adverse Effect Level no negative effect was observed
- PNEC Predicted No Effect Concentration an estimate of the concentration of the substance without adverse effects

NOELR No Observed Effect Loading Rate - dosage rate without observed effect

- NOEC No Observed Effect Concentration concentration without observed effect
- NOEL No Observed Effect Level level without observed effect
- LOEC Lowest Observed Effect Concentration lowest concentrations with observable effects
- ADR European Agreement concerning the international carriage of dangerous goods by road.
- RID Regulations concerning the international carriage of dangerous goods by rail.
- IMDG International maritime code of dangerous goods.
- ICAO The International Civil Aviation Organization.
- IATA International Air Transport Association.
- GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H301	Toxic if swallowed.
H302	Harmful if swallowed.
H311	Toxic in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
