| | Specific concentration limits, M-factors: | M = 10 | Skin Corr. 1B; H314: $C \ge 0,6\%$ Eye Dam. 1; H318: $C \ge 0,6\%$ Skin Irrit. 2; H315: $0,06\% \le C < 0,6\%$ Eye Irrit. 2; H319: $0,06\% \le C < 0,6\%$ Skin Sens. 1A; H317: $C \ge 0,0015\%$ M = 100 (acute) M = 100 (chronic) |
| | Full text of H - phrases in Section 16 | | |

| 14.4 | Description of first sid measures |
|-------|--|
| 4.1 | Description of first aid measures |
| | When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label or safety data |
| | sheet with information about substance or mixture with you in case of medical examination. |
| | Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, shortness of |
| | breath or other symptoms persist. |
| | When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, |
| | soap can be used; seek doctor's advice, especially if the skin stays irritated. |
| | Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact |
| | lenses remove them immediately. Seek medical attention. |
| | Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the |
| | Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or |
| | SDS. |
| 4.2 | Most important symptoms and effects, both acute and delayed |
| | The product may have adverse effects through inhalation and if swallowed. It can irritate skin, mucous membranes and eyes. |
| 4.3 | Indication of any immediate medical attention and special treatment needed: Symptomatic treatment |
| 5. | Section 5: Fire-fighting measures |
| 5.1 | Extinguishing media |
| | Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder. |
| | Unsuitable extinguishing media: The strong water current. It can be spread fire. |
| 5.0 | |
| 5.2 | Specific danger linked to the substance or mixture: Carbon monoxide can be produced while burning. |
| 5.3 | Advice for firefighters: wear a breathing apparatus and protective clothing. |
| 6. | Section 6: Accidental release measures |
| 6.1 | Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clothing, or |
| | respirator. |
| 6.1.1 | For workers except for those intervening in emergency cases - instructions in case of accidental spill and leak of substance or mixture: |
| | a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes or personal |
| | b) removing possible sources of ignition, providing proper ventilation, control of dust - not relevant |
| | c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert - not relevant |
| 6.1.2 | For workers intervening in emergency cases - instructions for appropriate materials of personal protective suits (see part 8 BL) |
| 6.2 | Environmental precautions: Prevent environmental pollution - leakage into drains, surface water, groundwater or soil. |
| 6.3 | Methods and material for containment and cleaning up: Anchor suitable absorbent, transfer to the disposal of the authorized person. |
| 6.3.1 | Instructions for leak limitation of spilled substance or mixture |
| 0.5.1 | |
| | a) enclose the spilled mixture, cover the canalization; |
| | b) seal the damaged package |
| 6.3.2 | Instructions for removal of spilled substance or mixture |
| | Absorb with appropriate agent, hand over to authorized person for |
| 6.4 | disposal. |
| 6.4 | Reference to other sections: See also section 7., 8 and 13. |
| 7. | Section 7: Handling and storage |
| 7.1 | Measures for safe manipulation: |
| 7.1.1 | Recomendations: |
| | a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape |
| | routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools |
| | and so on) andlimit the production of aerosol and dust. |
| | b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas. |
| | c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do |
| | not expose to direct sunlight or other heat sources. |
| | |
| | d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil. |
| 7.1.2 | |
| 7.1.2 | d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil. |
| 7.1.2 | d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil. Instructions for general hygiene of work: |

| 7.2 | Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201. Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation. | | | |
|-----------------------|---|---|--|--|
| 7.3 | | | | |
| 8. | Section 8: Exposure controls / personal protection | | | |
| 8.1 | Control parameters: | | | |
| | Exposure limits EH40/2005 (WELs): | Not Assigned | | |
| 8.2 | Exposure controls | | | |
| | | n while working with the product. Contaminated work clothes can be reused d water after use. Do not eat, drink or smoke while working with the product. | | |
| 8.2.1 | Appropriate engineering controls: Observe the usual precautions | to protect the health and well-ventilated. | | |
| 8.2.2 | Individual protection measures, such as personal protective equipment: | | | |
| | Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation. | | | |
| | a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled. b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water. | | | |
| | b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, use reparing hand cream. | | | |
| | c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141). | | | |
| | d) Heat hazard: Special attention must be paid to construction of protection against materials, which are considered to be heat haz | personal protective measures, when specifying protective measures for zard. Not relevant for this product. | | |
| 8.2.3 | | | | |
| 9. | Section 9: Physical and chemical properties | | | |
| 9.1. | Information on basic physical and chemical properties | | | |
| | a) State | viscous liquid | | |
| | b) Color | white liquid | | |
| | c) Odour: | characteristic of acrylic dispersion | | |
| | Odor threshold: | Not specified | | |
| | | | | |
| | d) Melting/Freezing point (temperature range) (°C): | approximately 0 | | |
| | e) Boiling point or initial boiling point and boiling range (°C) $% \left({{\left({{C} \right)} \right)} \right)$ | approximately 100 | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: | approximately 100 non-flammable liquid | | |
| | e) Boiling point or initial boiling point and boiling range (°C)f) Combustibility:g) Explosion limints: upper limit (% volume): | approximately 100 non-flammable liquid Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): | approximately 100 non-flammable liquid Not specified Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: | approximately 100 non-flammable liquid Not specified Not specified Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: m) Solubility (23 °C) | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified unlimited miscibility with water | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: m) Solubility (23 °C) with water: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified unlimited miscibility with water unlimited miscibility | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: m) Solubility (23 °C) with water: with fats: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified unlimited miscibility with water unlimited miscibility Not specified | | |
| | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: m) Solubility (23 °C) with water: with fats: n) Partition coefficient n - octanol/water: | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified unlimited miscibility with water unlimited miscibility Not specified Not specified | | |
| 9.2 | e) Boiling point or initial boiling point and boiling range (°C) f) Combustibility: g) Explosion limints: upper limit (% volume): lower limit (% volume): h) Point of ignition: i) Temperature of self-ignition: j) Temperature of decomposition (°C): k) pH l) Kinematic viscosity: m) Solubility (23 °C) with water: with fats: n) Partition coefficient n - octanol/water: o) Steam pressure (20 °C): p) Density and/or relative density (20 °C): | approximately 100 non-flammable liquid Not specified Not specified Not specified Not specified 8,0 - 9,0 Not specified unlimited miscibility with water unlimited miscibility Not specified 2,3 kPa approximately 1,40 - 1,50 g.cm ⁻³ | | |

| 10. | Section 10: Stability and reactivity | | | |
| | Product is stable under recommended storage and handling condition | | | |
| 10.1 | Reactivity: Product is not reactive under recommended storage and h | - | | |
| 10.2 | Chemical stability: Product is stable under recommended storage and | - | | |
| 0.3 | Possibility of hazardous reactions: In case of contact with substances | | | |
| 10.4 | Conditions to avoid: Temperatures below 0 °C and above 100 °C cau storage temperature reduce life of the product. | se degradation of the product. Temperatures above recommended | | |
| 10.5 | Incompatible materials: Substances reacting with water. | | | |
| 10.6 | Hazardous Decomposition Products: Carbon oxides may form during | burning. | | |
| 11. | Section 11: Toxicological information | | | |
| 11.1 | Information about hazard classes acording to (ES) č. 1272/2008 | | | |
| | a) Acute toxicity: | the classification cirteria are not met based on avilable information | | |
| | - LD ₅₀ , oral, rat (mg.kg ⁻¹): | the classification cirteria are not met based on avilable information | | |
| | - LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹): | the classification cirteria are not met based on avilable information | | |
| | - LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹): | the classification cirteria are not met based on avilable information | | |
| | - LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹): | the classification cirteria are not met based on avilable information | | |
| | b) corrosivity/skin irritation: | the classification cirteria are not met based on avilable information | | |
| | c) serious eye damage / eyes irritation: | the classification cirteria are not met based on avilable information | | |
| | d) sensitivity of airways / sensitivity of skin: | | | |
| | e) germ cells mutagenicity: | the classification cirteria are not met based on avilable information | | |
| | f) carcinogenicity: | the classification cirteria are not met based on avilable information | | |
| | g) toxicity for reproduction: | the classification cirteria are not met based on avilable information | | |
| | h) toxicity for specific organs - single exposure: | the classification cirteria are not met based on avilable information | | |
| | | the classification cirteria are not met based on avilable information | | |
| | i) toxicity for specific organs - multiple exposures: | the classification cirteria are not met based on avilable information | | |
| | j) hazards while inhaled: | the classification cirteria are not met based on avilable information | | |
| | Human experience: | No detrimental effects were found upon compliance with the prescribed safety measures. | | |
| | Tests on animals: | Were not performed | | |
| 1.1.1 | Information for each hazard class or breakdown: | see above | | |
| 1.1.2 | Toxicological properties of mixture | not avilable | | |
| 11.1.3 | If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run | not relevant | | |
| 11.1.4 | If the classification criteria are not met for specific hazard class, information explaining the justification should be stated. | relevant concentration limits were not exceeded | | |
| 1.1.5 | Information about likely exposure run | no effects on human health are known | | |
| 11.1.6 | Symptoms corresponding to physical, chemical and toxicological features | no effects on human health are known | | |
| 11.1.7 | Belated and immediate effects and chronical effects of short/long term exposure | no effects on human health are known | | |
| 1.1.8 | Interactive effects | unknown | | |
| 1.1.9 | Lack of specific data | not relevant | | |
| 11.1.10 | Mixtures | see part 8 | | |
| 11.1.11 | Mixtures information compared to substance information | | | |
| | 1) Substances in the mixture can react with each other inside of a body and can cause different levels of absorption, metabolism and | | | |
| | 2) It is necessary to consider, if concentration of each substance is su | | | |
| | a) if the information are doubled, they are listed only once for a | Not relevant for this mixture. | | |
| | substance as a whole, for example when two different substances are | | | |

substance as a whole, for example when two different substances are causing vomiting and diarrhea;

| | b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating | Not relevant for this mixture. |
|--|--|---|
| | solution to a level under certain concentration; | |
| | | |
| | c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on | see part 8 |
| | health of each substance will be listed. | |
| 11.1.12 | Additional data: | None |
| 11.2 | Other hazards information | |
| 11.2.1 | Features causing disruption of endocrinal systém | Not relevant for this mixture. |
| 11.2.2 | Other information | None |
| 12. | Section 12: Ecological information | |
| 12.1 | Toxicity | Harmful to aquatic life with long lasting effects. |
| | Acute toxicity for water organisms: | Mixture |
| | - LC ₅₀ , 96 hours, fish (mg/kg): | Not set |
| | - LC ₅₀ , 48 hours, fish (mg/kg): | Not set |
| | - IC ₅₀ , 72 hours, algae (mg/kg): | Not set |
| 12.2 | Persistence and degradability: | Not set |
| 12.3 | Bioaccumulative potential: | Not set |
| 12.4 | Mobility in soil: | It was not determined, the blend is miscible with water. |
| 12.5 | Results of PBT and vPvB | The mixture does not meet the criteria for classification as PBT or vPvB. |
| 12.6 | Features causing disruption of endocrinal system | Unknown for this mixture |
| 12.7 | Other adverse effects: | See Section 2 |
| | Additional data: | The product must not leak to surface and groundwater. Notify |
| | | competent authorities immediately in case of accident. |
| | | , |

e) List of H-sentences, whose full form is not listed in other parts.

| H310 Fatal in contact with skin. | |
|----------------------------------|--|
|----------------------------------|--|

| ŀ | H314 | Causes severe skin burns and eye damage. |
|---|-------|---|
| ŀ | H315 | Causes skin irritation. |
| ŀ | -1317 | May cause an allergic skin reaction. |
| ŀ | H318 | Causes serious eye damage. |
| ŀ | H319 | Causes serious eye irritation. |
| ŀ | 1330 | Fatal if inhaled. |
| ŀ | -1351 | Suspected of causing cancer (inhalation). |
| ŀ | 1400 | Very toxic to aquatic life. |
| ŀ | H410 | Very toxic to aquatic life with long lasting effects. |
| ŀ | -412 | Harmful to aquatic life with long lasting effects. |

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
