	Section 4: First aid measures		
1	Description of first aid measures When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic bet must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label sheet with information about substance or mixture with you in case of medical examination. Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, breath or other symptoms persist. When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is it		container with label or safety dat becially if coughing, shortness of
	soap can be used; seek doctor's advice, especially if the skin stays in Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep ey lenses remove them immediately. Seek medical attention. Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with Toxicology Information Centre for need of medical treatment with info SDS.	res open (even by force if necessary). 5.2 5.3	Methods and materials for limitation of leaks and for cleaning:	o drains, surface water, groundwater or soll.	
5.3.1	Instructions for leak limitation of spilled substance or mixture		
	a) enclose the spilled mixture, cover the canalization;		
	b) seal the damaged package		
.3.2	Instructions for removal of spilled substance or mixture		
	Absorb with appropriate agent, hand over to authorized person for dispos	sal.	
.4	Reference to other sections: See also section 7., 8 and 13.		
	Section 7: Handling and storage		
<b>'</b> .1	Measures for safe manipulation:		
.1.1	Recomendations:		
	a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and s on) andlimit the production of aerosol and dust.		
	b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.		
	c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources.		
	d) Prevent the contamination of environment, i.e. leak into canalization, s	surface or underground water and soil.

13. Section 13: Disposal considerations

13.1	Methods of waste management:				
	a) Appropriate methods of substance, mixture and contaminated package	ging disposal: Product remnants and packaging with product remnants			
	must be incinerated in a hazardous waste incinerator or kept at a hazard	dous waste landfill.			
	<ul><li>b) Physical / chemical properties that can affect means of waste handling: Both A and B components are liquids that are freely miscible with water, after mixing and curing these behave as solid.</li><li>c) Avoidance of disposal through sewer: It is necessary to prevent leakage of both components and hardened mixture into drains.</li></ul>				
	d) Special precautions for the recommended waste management: Avoid	I contact with skin and eyes.			
14.	Section 14: Transport information				
	Section 14: Transport information				
14.1	UN number or ID number	UN3082			
	Required shipping label:				
	ADR/RID/ADN:				
	IMDG:				
	IMDO.	EMS group: F-A,S-F			
	ICAO TI:	Ă Ă			
		$\operatorname{Alb}(\mathbb{Y}_2)$			
14.2	Proper name of the United Nations for the shipment				
	ADR/RID/ADN:	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.			
		(EPOXY RESIN FROM BISPHENOL A AND BISPHENOL F)			
	IMDG:	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.			
		(EPOXY RESIN FROM BISPHENOL A AND BISPHENOL F)			
	ICAO TI:	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.			
		(EPOXY RESIN FROM BISPHENOL A AND BISPHENOL F)			
14.3	Class / classes of hazards to transportation:				
	ADR/RID/ADN:	9			
	IMDG:	9			
	ICAO TI:	9			
14.4	Packing group:				
	ADR/RID/ADN:	111			
	IMDG:				
14.5	Environmental hazards:	It is not intended to be transported in containers by inland waterways.			
		This material presents a risk to the environment under the criteria of			
		the Model UN regulation of hazardous products and / or pollutants according to the IMDG Code.			
110	Created and externa for users				
14.6	Special precautions for user:	See Section 8			
		274: The provisions of subsection 3.1.2.8 apply (ADR). Symbol (fish			
447	Special provisions (ADR):	and tree)			
14.7	Naval mass-transport according to instrumenst IMO:	Not applicable			
	Notes:	None			
	Additional data:	None			
15.	Section 15: Regulatory information				
15.1	Safety, health and environmental regulations/legislation specific for the				
	Regulation of the European Parliament and Council Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and				
	Restriction of Chemicals establishing a European Chemicals Agency, as amended				
	Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended				
	Commision directive (EU) No. 878/2020				
	EH40/2005 Workplace exposure limits (second edition, published 2011)	. Containing the list of workplace exposure limits for use with the			
	Control of Substances Hazardous to Health Regulations (as amended)				
15.2	Assessment chemical safety of mixture:	Were not performed			
16.	Section 16: Other informations				
	Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and				
	safety as well as recommendation related to ecological matters that are	essential to safe usage of the product.			
	a) New edition.				
	b) key or legend for abbreviations and accronyms used in the safety dat	a sheet:			
	LD <sub>50</sub> The lethal dose for 50 % mortality of the test population rela	tive to a control sample.			
	LC <sub>50</sub> Lethal concentration for 50 % mortality of the test population	n relative to a control sample.			
	$EC_{50}$ Effective concentration for 50 % mortality of the test population relative to a control sample.				
	EC <sub>10</sub> Effective concentration for 10 % mortality of the test population relative to a control sample.				

IC<sub>50</sub> Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample.

- LL<sub>50</sub> Lethal loading doses of test substance resulting in 50% mortality
- EL<sub>50</sub> Effective loading doses of test substance resulting in 50% mortality
- PBT Persistent, bioaccumulative and toxic substances.
- vPvB Very persistent and very bioaccumulative substances.
- DNEL Derived No Effect Level derived concentration of the substance without adverse effects
- DMEL Derived Minimum Effect Level derived minimum level at which the adverse effects
- NOAEL No Observed Adverse Effect Level no negative effect was observed
- PNEC Predicted No Effect Concentration an estimate of the concentration of the substance without adverse effects
- NOELR No Observed Effect Loading Rate dosage rate without observed effect
- NOEC No Observed Effect Concentration concentration without observed effect
- NOEL No Observed Effect Level level without observed effect
- LOEC Lowest Observed Effect Concentration lowest concentrations with observable effects
- ADR European Agreement concerning the international carriage of dangerous goods by road.
- RID Regulations concerning the international carriage of dangerous goods by rail.
- IMDG International maritime code of dangerous goods.
- ICAO The International Civil Aviation Organization.
- IATA International Air Transport Association.
- GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H315Causes skin irritation.H317May cause an allergic skin reaction.H319Causes serious eye irritation.H411Toxic to aquatic life with long lasting effects.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.

First edition.
