SAFETY DATA SHEET

According to Regulation (EC) No. 1907/2006 and Commission Regulation (EU) No. 878/2020

Date of Issue: 10. 05. 2024 Version number: 1 No. of pages: 9

Revision date: Replaces version: -

Product name: ETERNAL HYDROFOBIZACE W

1. Section 1: Identification of substance/mixture and of the company/undertaking

1.1 Product identifier: ETERNAL HYDROFOBIZACE W

The product is not a nanoform, nor does it contain any nanoforms.

UFI code: G0WX-EUW2-P61S-5JT3

1.2 Relevant identified uses of the substance or mixture and uses advised against:

1.2.1 Relevant identified use:

Life cycle phases: PW (wide use by professionals - basic)

C (consumer use)

Usage Name: SU0

Other usage description: a hydrophobizing agent

Market description: PC9a; PC15

Contributing Activity Name: roller or brush application

non-industrial spraying techniques
Contributing activities descriptor:
PROC10

PROC10

More information: technical function of the product in a hydrophobizing agent

this use:

quantity to use: 0 - 10 t / yr
Regulatory status by use: No
a limited number of devices for No

this use:

the subsequent period of use

relevant to this use:

an overview of environmental ERC2; ERC8c; ERC8f; ERC10a;

24 months

FRC11a

release categories for each life

GHS 07

Warning

cycle stage:

1.2.2

2. Section 2: Hazard identification

2.1 Classification of the substance or mixture The mixture is classified as dangerous.

Classification under Regulation 1272/2008/EU Skin Irrit. 2; H315 Aquatic Chronic 3; H412

2.2 Label elements Symbols:

bel elements

Signal word:

It contains a hazardous substance: Triethoxyoctylsilane, mixture [EC: 614-604-2],

oktamethylcyclotetrasiloxane [ES: 209-136-7] and dodecan-1-ol,

1/9

ethoxylated

Hazard Statement: H315: Causes skin irritation.

SDS 68/2024

Precautionary Statement: P264: Wash your hands thoroughly after handling. P273: Avoid release to the environment. P280: Wear protective gloves/protective clothing/eye protection/face P302+P352: IF ON SKIN: Wash with plenty of soap and water. P333+P313: If skin irritation or rash occurs: Get medical advice/attention P501: Dispose of contents/container in accordance with relevant national legislation. The mixture contains OKTAMETHYLCYCLOTETRASILOXANE. 2.3 Other hazards: which was included in the List of Substances of Very High Concern subject to Authorisation (Annex XIV of REACH) by Commission Regulation (EU) 2018/35 of 10 January 2018. The mixture is not endocrine disruptor, nor does it contain any. Other risks: EUH208: It contains a reaction mixtue: CMIT/MIT (3:1) [Index number: 613-167-00-5]. May cause an allergic reaction. EUH210: A safety data sheet is available on request. Section 3: Composition / information on ingredients Aqueous silane-siloxane emulsion and additives. 3.2 Mixtures Chemical name: Triethoxyoctylsilane **DIMETHYL SILOXANE WITH AMINOETHYLAMINO** PROPYLSILSESQUI OXANE. **HYDROXY-TERM** Content [%]: < 10 < 15 Index number: Not Assigned Not Assigned 2943-75-1 68554-54-1 CAS EC number (EINECS): 220-941-2 614-604-2 **REACH Registration number:** 01-2119972313-39-0XXX Not Assigned Skin Irrit. 2; H315 Classification according to Directive 1272/2008/EU: Skin Irrit. 2; H315 Eye Irrit. 2; H319 Specific concentration limits, M-factors: Not Assigned Not Assigned Chemical name: Dodecan-1-ol, ethoxylated **OCTAMETHYLCYCLO TETRASILOXANE** Content [%]: < 0,5 < 0.125 Index number: Not Assigned 014-018-00-1 9002-92-0 CAS: 556-67-2 EC number (EINECS): 500-002-6 209-136-7 **REACH Registration number:** 01-2119968561-30-0XXX 01-2119529238-36-0XXX Classification according to Directive 1272/2008/EU: Acute Tox. 4; H302 Flam. 4. Section 4: First aid measures

4.1 Description of first aid measures

When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label or safety data sheet with information about substance or mixture with you in case of medical examination.

Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, shortness of breath or other symptoms persist.

When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soap can be used; seek doctor's advice, especially if the skin stays irritated.

Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention.

Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or SDS.

4.2 Most important symptoms and effects, both acute and delayed

The product may have adverse effects through inhalation and if swallowed. It can irritate skin, mucous membranes and eyes.

4.3 Indication of any immediate medical attention and special treatment needed:

Symptomatic treatment

5. Section 5: Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media: The product is not inflammable. Water spray (water mist), foam, carbon dioxide, dry powder.

Unsuitable extinguishing media: The strong water current. It can be spread fire.

- 5.2 Specific danger linked to the substance or mixture: Burning may produce carbon monoxide, SiO₂, chlorine and nitrogen compounds.
- 5.3 Advice for firefighters: wear a breathing apparatus and protective clothing.

6. Section 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clothing, or respirator.
- 6.1.1 For workers except for those intervening in emergency cases instructions in case of accidental spill and leak of substance or mixture:
 - a) use of appropriate protection (including personal protective equipment according to part 8 BL), in order to avoid any skin, eyes or personal clothing contamination;
 - b) removing possible sources of ignition, providing proper ventilation, control of dust not relevant
 - c) emergency measures, for example necessary evacuation from dangerous area or consultation with an expert not relevant
- 6.1.2 For workers intervening in emergency cases instructions for appropriate materials of personal protective suits (see part 8 BL)
- 6.2 Environmental precautions: Prevent environmental pollution leakage into drains, surface water, groundwater or soil.
- 6.3 Methods and materials for limitation of leaks and for cleaning:
- 6.3.1 Instructions for leak limitation of spilled substance or mixture
 - a) enclose the spilled mixture, cover the canalization;
 - b) seal the damaged package
- 6.3.2 Instructions for removal of spilled substance or mixture

Absorb with appropriate agent, hand over to authorized person for disposal.

6.4 Reference to other sections: See also section 7., 8 and 13.

3/9 SDS 68/2024

Section 7: Handling and storage

7.1 Measures for safe manipulation:

7.1.1 Recomendations:

- a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) and limit the production of aerosol and dust.
- b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.
- c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources.
- d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil.
- 7.1.2 Instructions for general hygiene of work:
 - a) Do not eat, drink or smoke on work areas.
 - b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.
 - c) Before entering dining areas, remove contaminated clothing and protective equipment.
- 7.2 Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201.
- 7.3 Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation

8. Section 8:	Exposure controls /	personal protection

Ensure adequate ventilation. Ensure protective equipment is worn while	working with the product (

8.2

Ensure adequate ventilation. Ensure protective equipment is worn while working with the product. Contaminated work clothes can be reused after thorough cleaning. Wash your hands and face with soap and water after use. Do not eat, drink or smoke while working with the product.

- 8.2.1 Appropriate engineering controls: Observe the usual precautions to protect the health and well-ventilated.
- 8.2.2 Individual protection measures, such as personal protective equipment:

Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.

- a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.
- b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and
- b-1) Hands protection: suitable protective gloves (made from rubber according to EN 374), wash your hands with soap and water after work, use reparing hand cream.

5/9 SDS 68/2024

- c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).
- d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.
- 8.2.3 Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.

9. Section 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

a) State low viscosity liquid b) Color milky white

c) Odour: Characteristic, after the raw materials used Odor threshold: Not specified

d) Melting/Freezing point (temperature range) (°C):

e) Boiling point or initial boiling point and boiling range (°C)

f) Combustibility:

Not specified
approximately 100
non-flammable liquid

g) Explosion limints: upper limit (% volume):

Not specified

Not specified

Not specified

h) Point of ignition:

Not specified

i) Temperature of self-ignition:

Not specified

Not specified

Not specified

Not specified

Not specified

Not specified

k) pH (23 °C) 5,0 - 8,0 (23 °C) I) Kinematic viscosity: Not specified

m) Solubility (23 °C)
- with water: unlimited miscibility with water

- with fats: Not specified

n) Partition coefficient n - octanol/water: Not specified

o) Steam pressure (20 °C): Not specified

p) Density and/or relative density (20 °C): approximately 1,0 g.cm⁻³ (20 °C)

q) Relative viscosity of steam (at °C):

Not specified
r) Particles characteristics:

Not specified

9.2 Other information:

9.2.1 Information about class of physical hazard: is not relevant

9.2.2 Other safety characteristics

Evaporation rate:

Dynamic viscosity:

Not specified

Explosive properties:

Not specified

Oxidizing properties:

Not specified

VOC

21,5 g/l

10. Section 10: Stability and reactivity

Product is stable under recommended storage and handling conditions.

- 10.1 Reactivity: Product is not reactive under recommended storage and handling conditions.
- 10.2 Chemical stability: Product is stable under recommended storage and handling conditions.
- 10.3 Possibility of hazardous reactions: In case of contact with substances reacting dangerously with water.
- 10.4 Conditions to avoid: Temperatures below 0 °C and above 100 °C cause degradation of the product. Temperatures above recommended storage temperature reduce life of the product.
- 10.5 Incompatible materials: Substances reacting with water, strong oxidizing agents.
- 10.6 Hazardous Decomposition Products: Carbon monoxide, SiO₂, chlorine and nitrogen compounds may form during burning.

11. Section 11: Toxicological information

11.1 Information about hazard classes acording to (ES) č. 1272/2008

a) acute toxicity:

- LD₅₀, oral, rat (mg.kg⁻¹):

- LD₅₀, dermal, rat or rabbit (mg.kg⁻¹):

- LC₅₀, inhalation, rat, for aerosols or particles (mg.kg⁻¹):

- LC₅₀, inhalation, rat, for gases and vapours (mg.kg⁻¹):

b) corrosivity/skin irritation:

c) serious eye damage / eyes irritation:

d) sensitivity of airways / sensitivity of skin:

e) germ cells mutagenicity:

f) carcinogenicity:

g) toxicity for reproduction:

h) toxicity for specific organs - single exposure:

i) toxicity for specific organs - multiple exposures:

the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information the classification cirteria are not met based on avilable information Causes skin irritation.

6/9 SDS 68/2024

i) hazards while inhaled: the classification cirteria are not met based on avilable information No detrimental effects were found upon compliance with the Human experience: prescribed safety measures. Tests on animals: Were not performed 11.1.1 Information for each hazard class or breakdown: see above 11.1.2 Toxicological properties of mixture not relevant Triethoxyoktylsilane (ES: 220-941-2); Dodekan-1-ol, ethoxylated (ES: see part 8 500-002-6) a Oktamethylcyklo tetrasiloxane (ES: 209-136-7) 11.1.3 If enough information from substance/mixture trials exist, it might be not relevant necessary to sum up results of used studies, for example according to exposure run 11.1.4 If the classification criteria are not met for specific hazard class, relevant concentration limits were not exceeded information explaining the justification should be stated. 11.1.5 Information about likely exposure run no effects on human health are known 11.1.6 Symptoms corresponding to physical, chemical and toxicological no effects on human health are known 11.1.7 Belated and immediate effects and chronical effects of short/long term no effects on human health are known exposure 11.1.8 Interactive effects unknown 11.1.9 Lack of specific data not relevant 11.1.10 Mixtures see part 8 11.1.11 Mixtures information compared to substance information 1) Substances in the mixture can react with each other inside of a body and can cause different levels of absorption, metabolism and 2) It is necessary to consider, if concentration of each substance is sufficient to contribute to mixture's effects on health. For each substance a) if the information are doubled, they are listed only once for a Not relevant for this mixture. substance as a whole, for example when two different substances are causing vomiting and diarrhea; b) if it is not likely the effects will appear with current concentrations, for Not relevant for this mixture. example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration; c) if the information about mutual effects of substances in the mixture see part 8 are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed. 11.1.12 Additional data: None 11.2 Other hazards information 11.2.1 Features causing disruption of endocrinal system Not relevant for this mixture. 11.2.2 Other information None 12. Section 12: Ecological information 12.1 Toxicity Acute toxicity for water organisms: LC₅₀, 96 hours, fish (Pimephales promelas): Not set LC₅₀, 48 hours, (Daphnia magna): Not set IC₅₀, 72 hours, algae: Not set 12.2 Persistence and degradability: Not set 12.3 Bioaccumulative potential: Not set 12.4 Mobility in soil: It was not determined, the blend is miscible with water. Results of PBT and vPvB The mixture contains OKTAMETHYLCYCLOTETRASILOXANE. 12.5 which was included in the List of Substances of Very High Concern subject to Authorisation (Annex XIV of REACH) by Commission Regulation (EU) 2018/35 of 10 January 2018. 12.6 Features causing disruption of endocrinal systém Unknown for this mixture 12.7 Other adverse effects: See Section 2

13. Section 13: Disposal considerations

13.1 Methods of waste management:

Additional data:

(a) Appropriate methods of disposal of the substance or mixture and contaminated packaging: Risk of environmental contamination, follow the Waste Act (as amended) and the applicable Waste Disposal Regulations (as amended). Place the unused product and contaminated packaging in marked waste collection containers and hand it over for disposal to an authorised waste disposal person (specialised company) authorised to do so. Do not dispose of unused product down the drain. It must not be disposed of with municipal waste. Empty packaging may be used for energy recovery in a waste incinerator (except for metal) or disposed of in a landfill of the appropriate classification. Completely cleaned packaging may be handed over for recycling. Always comply with the relevant national legislation!

Water hazard class 1. Low water hazard (Self-assessment). The product must not leak to surface and groundwater. Notify competent

authorities immediately in case of an accident.

- b) Physical / chemical properties that can affect means of waste handling: Liquid mixture is completely miscible with water.
- c) Avoidance of disposal through sewer: Discharge into the sewer is permitted according to the conditions laid down by water authorities.
- d) Special precautions for the recommended waste management: Avoid contact with skin and eyes.

15. Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture.

Regulation of the European Parliament and Council Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals establishing a European Chemicals Agency, as amended

Regulation of the European Parliament and Council Regulation (EC) No 1272/2008 (CLP) as amended

Commision directive (EU) No. 878/2020

EH40/2005 Workplace exposure limits (second edition, published 2011). Containing the list of workplace exposure limits for use with the Control of Substances Hazardous to Health Regulations (as amended)

15.2 Assessment chemical safety of mixture: Were not performed

16. Section 16: Other informations

Information stated in this safety data sheet is based on the current knowledge of EU legislation. It is recommendation in terms of health and safety as well as recommendation related to ecological matters that are essential to safe usage of the product.

- a) New edition.
- b) key or legend for abbreviations and accronyms used in the safety data sheet:

 LD_{50} The lethal dose for 50 % mortality of the test population relative to a control sample.

LC₅₀ Lethal concentration for 50 % mortality of the test population relative to a control sample.

 EC_{50} Effective concentration for 50 % mortality of the test population relative to a control sample.

EC₁₀ Effective concentration for 10 % mortality of the test population relative to a control sample.

IC₅₀ Inhibitory concentration to reduce the growth or growth rate of 50% of the test population relative to a control sample.

Lethal loading doses of test substance resulting in 50% mortality

EL₅₀ Effective loading doses of test substance resulting in 50% mortality

PBT Persistent, bioaccumulative and toxic substances.

vPvB Very persistent and very bioaccumulative substances.

DNEL Derived No Effect Level - derived concentration of the substance without adverse effects

DMEL Derived Minimum Effect Level - derived minimum level at which the adverse effects

NOAEL No Observed Adverse Effect Level - no negative effect was observed

PNEC Predicted No Effect Concentration - an estimate of the concentration of the substance without adverse effects

8/9

NOELR No Observed Effect Loading Rate - dosage rate without observed effect

NOEC No Observed Effect Concentration - concentration without observed effect

NOEL No Observed Effect Level - level without observed effect

LOEC Lowest Observed Effect Concentration - lowest concentrations with observable effects

SDS 68/2024

ADR European Agreement concerning the international carriage of dangerous goods by road.

RID Regulations concerning the international carriage of dangerous goods by rail.

IMDG International maritime code of dangerous goods. ICAO The International Civil Aviation Organization.

IATA International Air Transport Association.

GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H226 Flammable liquid and vapour.

H301 Toxic if swallowed.
 H302 Harmful if swallowed.
 H310 Fatal in contact with skin.

H314 Causes severe skin burns and eye damage.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.
 H318 Causes serious eye damage.
 H319 Causes serious eye irritation.

H330 Fatal if inhaled.

H361f Suspected of damaging fertility.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.H412 Harmful to aquatic life with long lasting effects.

EUH071 Causes burns to the respiratory tract.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
