4.	Section 4: First aid measures		
4.2 4.3 5.	 When providing first aid it is necessary to ensure safety of both victim and person rescuing. It is necessary to avoid chaotic behavior. Victim must be kept in mental and physical rest. Victim must be kept warm and must not get chilled. Take original container with label or safety data sheet with information about substance or mixture with you in case of medical examination. Inhalation: Break exposure, move to fresh air protecting the victim from cold. Provide medical treatment especially if coughing, shortness of breath or other symptoms persist. When on skin: Put away contaminated clothes and shoes, wash the contaminated spot with plenty of tepid water; if the skin is not irritated, soar can be used; seek doctor's advice, especially if the skin stays irritated. Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact lenses remove them immediately. Seek medical attention. Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with 5 to 10 tablets of crushed charcoal. In case of nausea contact the Toxicology Information Centre for need of medical treatment with information about composition of the mixture from the original container or SDS. Most important symptoms and effects, both acute and delayed The product may have adverse effects through inhalation and if swallowed. It can irritate skin, mucous membranes and eyes. Indication of any immediate medical attention and special treatment needed: Symptomatic treatment 		
5.1 5.2	Extinguishing media Suitable extinguishing media: The product is not inflammable. Unsuitable extinguishing media: The strong water current. It ca Specific danger linked to the substance or mixture: Carbon mo	n be spread fire.	
5.3	Advice for firefighters: wear a breathing apparatus and protecti		
6.	Section 6: Accidental release measures		
6.1	Personal precautions, protective equipment and emergency procedures: Appropriate protective gloves, goggles, appropriate clothing, or respirator.		
6.1.1	For workers except for those intervening in emergency cases - a) use of appropriate protection (including personal protective e clothing contamination; b) removing possible sources of ignition, providing proper venti c) emergency measures, for example necessary evacuation fro	equipment according to part 8 BL), in order t lation, control of dust - not relevant om dangerous area or consultation with an e	to avoid any skin, eyes or personal expert - not relevant
	For workers intervening in emergency cases - instructions for a Environmental precautions: Prevent environmental pollution - le	appropriate materials of personal protective	suits (see part 8 BL)

6.3.2 Instructions for removal of spilled substance or mixture

Absorb with appropriate agent, hand over to authorized person for disposal.

6.4 Reference to other sections: See also section 7., 8 and 13.

7. Section 7: Handling and storage

7.1 Measures for safe manipulation:

7.1.1 Recomendations:

a) Workers handeling the product have to get familiar with health and safety rules for work and have to obey these rules. Secure escape routs (enclosing of leaked mixture, sealing of demaged packages and so on), for fire prevention (remove ignition sources, non-sparkling tools and so on) andlimit the production of aerosol and dust.

b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas.

c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources.

d) Prevent the contamination of environment, i.e. leak into canalization, surface or underground water and soil.

7.1.2 Instructions for general hygiene of work:

a) Do not eat, drink or smoke on work areas.

b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream.

c) Before entering dining areas, remove contaminated clothing and protective equipment.

7.2 Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201.

7.3 Specific end use: see part 1.2; coating procedure and recomendations are listed in technical list of the product, or in other product documentation.

8. Section 8: Exposure controls / personal protection

8.1 Control parameters:

Control parameters:	
Exposure limits EH40/2005 (WELs):	
Chemical name:	2-butoxyethanol
CAS:	111-76-2
Long-term exposure limit [mg/m ³] (TWA/8 h)	123 (25 ppm)
Short-term exposure limit [mg/m ³] (15 minut) 2-butoxyethanol [ES: 203-905-0]:	246 (50 ppm)
DNEL (Workers, Hazard via inhalation route, Systemic effects, Long term exposure)	98 mg/m ³
DNEL (Workers, Hazard via inhalation route, Systemic effects, Acute/short term exposure)	1091 mg/m ³
DNEL (Workers, Hazard via inhalation route, Local effects, Long term exposure)	246 mg/m ³ (respiratory tract)
DNEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	125 mg/kg bw/day
NOAEL (Workers, Hazard via dermal route, Systemic effects, Long term exposure)	150 mg/kg bw/day
DNEL (Workers, Hazard via dermal route, Systemic effects, Acute/short term exposure)	89 mg/kg bw/day
DNEL (General Population, Hazard via inhalation route, Systemic effects Long term exposure)	[,] 59 mg/m ³
DNEL (General Population, Hazard via inhalation route, Systemic effects Acute/short term exposure)	[,] 426 mg/m ³
DNEL (General Population, Hazard via inhalation route, Local effects, Long term exposure)	147 mg/m ³ (respiratory tract)
DNEL (General Population, Hazard via dermal route, Systemic effects, Long term exposure)	75 mg/kg bw/day
NOAEL (General Population, Hazard via dermal route, Systemic effects, Long term exposure)	150 mg/kg bw/day
DNEL (General Population, Hazard via dermal route, Systemic effects, Acute/short term exposure)	89 mg/kg bw/day
DNEL (General Population, Hazard via oral route, Systemic effects, Long term exposure)	g 6,3 mg/kg bw/day
DNEL (General Population, Hazard via oral route, Systemic effects, Acute/short term exposure)	26,7 mg/kg bw/day
PNEC aqua (freshwater)	8,8 mg/L
PNEC aqua (marine water)	0,88 mg/L
PNEC STP	463 mg/L
PNEC sediment (freshwater)	34,6 mg/kg sediment dw
PNEC sediment (marine water)	3,46 mg/kg sediment dw
PNEC soil	2,33 mg/kg soil dw
	0,02 g/kg food

8.2 Exposure controls

Ensure adequate ventilation. Ensure protective equipment is worn while working with the product. Contaminated work clothes can be reused after thorough cleaning. Wash your hands and face with soap and water after use. Do not eat, drink or smoke while working with the product.

8.2.1 Appropriate engineering controls: Observe the usual precautions to protect the health and well-ventilated.

8.2.2 Individual protection measures, such as personal protective equipment:

Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.

a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.

b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.

b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recommended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).

d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.

8.2.3 Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.

9.	Section 9: Physical and chemical properties		
9.1.	Information on basic physical and chemical properties		
	a) State	viscous liquid	
	b) Color	milky white	
	c) Odour:	characteristic of acrylic dispersion	
	Odor threshold:	Not specified	
	d) Melting/Freezing point (temperature range) (°C):	approximately 0	
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100	
	f) Combustibility:	non-flammable liquid	
	g) Explosion limints: upper limit (% volume):	Not specified	
	lower limit (% volume):	Not specified	
	h) Point of ignition:	Not specified	
	i) Temperature of self-ignition:	Not specified	
	j) Temperature of decomposition (°C):	Not specified	
	k) pH (23 °C)	8,0 - 9,0	
	I) Kinematic viscosity:	Not specified	
	m) Solubility (23 °C)		
	- with water:	unlimited miscibility	
	- with fats:	Not specified	
	n) Partition coefficient n - octanol/water:	Not specified	
	o) Steam pressure (20 °C):	2,3 kPa	
	p) Density and/or relative density (20 °C):	approximately 1,00 - 1,20 g.cm ⁻³	
	q) Relative viscosity of steam (at °C):	Not specified	
9.2	r) Particles characteristics: Other information:	Not specified	
9.2.1	Information about class of physical hazard:	is not relevant	
9.2.2	Other safety characteristics		
	Evaporation rate:	Not specified	
	Dynamic viscosity:	Not specified	
	Explosive properties:	Not specified	
	Oxidizing properties:	Not specified	
	VOC (g/L):	46	
10.	Section 10: Stability and reactivity		
	Product is stable under recommended storage and handling c	onditions.	
10.1	Reactivity: Product is not reactive under recommended storag	e and handling conditions.	
10.2	Chemical stability: Product is stable under recommended storage and handling conditions. Possibility of hazardous reactions: In case of contact with substances reacting dangerously with water.		
10.3			
10.4	Conditions to avoid: Temperatures below 0 °C and above 100 °C cause degradation of the product. Temperatures above recommended storage temperature reduce life of the product.		
10.5	Incompatible materials: Substances reacting with water.		
10.6	Hazardous Decomposition Products: Carbon monoxide and di	oxide and carbon black may form during burning.	
11.	Section 11: Toxicological information		
11.1	Information about hazard classes acording to (ES) č. 1272/200	38	
	a) acute toxicity:	the classification cirteria are not met based on avilable information	
I	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information	
		4/12 SDS 71/2022	

	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information
	b) corrosivity/skin irritation:	the classification cirteria are not met based on avilable information
	c) serious eye damage / eyes irritation:	the classification cirteria are not met based on avilable information
	d) sensitivity of airways / sensitivity of skin:	the classification cirteria are not met based on avilable information
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information
	f) carcinogenicity:	the classification cirteria are not met based on avilable information
	g) toxicity for reproduction:	the classification cirteria are not met based on avilable information
	h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information
	i) toxicity for specific organs - multiple exposures:	the classification cirteria are not met based on avilable information
	j) hazards while inhaled:	the classification cirteria are not met based on avilable information
	Human experience:	No detrimental effects were found upon compliance with the prescribed safety measures.
	Tests on animals:	Were not performed
11.1.1	Information for each hazard class or breakdown:	see above
11.1.2	Toxicological properties of mixture	not avilable
	2-butoxyethanol [ES: 203-905-0]	see part 8
	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run	not relevant
	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were not exceeded
11.1.5	Information about likely exposure run	no effects on human health are known
11.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are known
	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are known
11.1.8	Interactive effects	unknown
11.1.9	Lack of specific data	not relevant
11.1.1(Mixtures	see part 8
11.1.1 [.]	Mixtures information compared to substance information	
	1) Substances in the mixture can react with each other inside of a body ar	nd can cause different levels of absorption, metabolism and secretion.
	2) It is necessary to consider, if concentration of each substance is suffici	
	a) if the information are doubled, they are listed only once for a	Not relevant for this mixture.
	substance as a whole, for example when two different substances are causing vomiting and diarrhea;	
	 b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration; 	Not relevant for this mixture.
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.	see part 8
11.1.12	Other information	None
11.2	Other hazards information	
11.2.1	Features causing disruption of endocrinal systém	Not relevant for this mixture.
	Additional data:	None
	Section 12: Ecological information	
	Toxicity	
	Acute toxicity for water organisms:	
	- LC ₅₀ , 96 hours, fish (mg/kg):	Not set
	- LC ₅₀ , 48 hours, fish (mg/kg):	Not set
	- IC ₅₀ , 72 hours, algae (mg/kg):	Not set
12.2	Persistence and degradability:	Not set
12.3	Bioaccumulative potential:	Not set
	Mobility in soil: Results of PBT and vPvB	It was not determined, the blend is miscible with water. The mixture does not meet the criteria for classification as PBT or
126	Features causing disruption of opdooring! systém	vPvB. Unknown for this mixture
	Features causing disruption of endocrinal systém Other adverse effects:	See Section 2
	Additional data:	The product must not leak to surface and groundwater. Notify competent authorities immediately in case of accident.
13	Section 13: Disposal considerations	

13.1 Methods of waste management:

a) Appropriate methods of substance, mixture and contaminated packaging disposal: Product remnants and packaging with product remnants must be incinerated in a hazardous waste incinerator or kept at a hazardous waste landfill.

b) Physical / chemical properties that can affect means of waste handling: Liquid mixture is completely miscible with water.

c) Avoidance of disposal through sewer: It is necessary to prevent leakage of both components and hardened mixture into drains.

d) Special precautions for the recommended waste management: Avoid contact with skin and eyes.

14.	Section 14: Transport information	
14.1	UN number or ID number	Not specified
	Required shipping label:	
	ADR/RID/ADN:	Not specified
	IMDG:	Not specified
	ICAO TI:	Not specified
14.0		
14.2	Proper name of the United Nations for the shipment	Not encoified
	Ground transport ADR/RID/ADN:	Not specified
	Naval transport IMDG:	Not specified
	Air transport ICAO TI:	Not specified
14.3	Transport hazard class(es):	
	ADR/RID/ADN:	Not specified
	IMDG:	Not specified
	ICAO TI:	Not specified
14.4	Packing group:	
	ADR/RID/ADN:	Not specified
	IMDG:	Not specified
	ICAO TI:	Not specified
14.5	Environmental hazards:	Not specified
14.6	Special precautions for user:	See Section 8
	Special provisions (ADR):	Not specified
14.7	Naval mass-transport according to instrumenst IMO:	Not applicable
	Notes:	None
	Additional data:	None

If the substance without adverse effects in level at which the adverse effects the concentration of the substance without adverse effects if the concentration of the substance without adverse effects if the concentration of the substance without adverse effects if the observed effect

NOEL No Observed Effect Level - level without observed effect

LOEC Lowest Observed Effect Concentration - lowest concentrations with observable effects

ADR European Agreement concerning the international carriage of dangerous goods by road.

RID Regulations concerning the international carriage of dangerous goods by rail.

IMDG International maritime code of dangerous goods.

- ICAO The International Civil Aviation Organization.
- IATA International Air Transport Association.

GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008

For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H301	Toxic if swallowed.
H302	Harmful if swallowed.
H310	Fatal in contact with skin.
H312	Harmful in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H332	Harmful if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
