SAFETY DATA SHEET

According to Regulation (EC) No. 1907/2006 and Commission Regulation (EU)

No. 878/2020

Date o	f Issue: 15. 08. 2023		Version number: 1	No. of pages: 9	
Revisio	on date:		Replaces version: -		
Produc	t name: ETERNA	L HYDROFOBIZACE W			
1.	Section 1: Identification	of substance/mixture and of the company/	undertaking		
1.1	Product identifier:		ETERNAL HYDROFOBIZACE	N	
	The product is not a nanof	orm, nor does it contain any nanoforms.			
	UFI code:		G0WX-EUW2-P61S-5JT3		
1.2	Relevant identified uses of	the substance or mixture and uses advised a	against:		
1.2.1	Relevant identified use:				
	Life cycle phases:		PW (wide use by professionals -	- basic)	
			C (consumer use)		
	Usage Name:		SU0		
	Other usage description:		a hydrophobizing agent		
	Market description:		PC9a; PC15		
	Contributing Activity Name	e:	roller or brush application		
			non-industrial spraying technique	es	
	Contributing activities desc	criptor:	PROC10		
			PROC11		
	More information:		technical function of the product this use:	in a hydrophobizing agent	
			quantity to use:	0 - 10 t / yr	
			Regulatory status by use:	No	
			a limited number of devices for this use:	No	
			the subsequent period of use relevant to this use:	24 months	
			an overview of environmental	ERC2; ERC8c; ERC8f; ERC10a;	
			release categories for each life cycle stage:	ERC11a	
			supplied as a mixture		
1.2.2	Uses advised against:		all other uses		
1.3	Details of the supplier of the	ne safety data sheet:			
	Producer and supplier:		AUSTIS a. s.		
	Adress:		K Austisu 680, 154 00 PRAHA	A 5 - Slivenec

4.	Section 4: First aid measures			
4.1	Description of first aid measures			
	When providing first aid it is necessary to ensure safety of both victim	and person rescuing. It is necessary to avoid chaotic behavior. Victim		
		nd must not get chilled. Take original container with label or safety data		
	sheet with information about substance or mixture with you in case of			
	Inhalation: Break exposure, move to fresh air protecting the victim fror			
	breath or other symptoms persist.			
	When on skin: Put away contaminated clothes and shoes, wash the c	ontaminated spot with plenty of tepid water; if the skin is not irritated,		
	soap can be used; seek doctor's advice, especially if the skin stays irr	itated.		
	Eye Contact: Rinse eyes with plenty of water (10 to 15 min). Keep eyes open (even by force if necessary). If the victim is wearing contact			
	lenses remove them immediately. Seek medical attention.			
	Ingestion: Do not induce vomiting! Drink at least 0.5 liters of water with	n 5 to 10 tablets of crushed charcoal. In case of nausea contact the

7.	Section 7: Handling and storage		
 7.1	Measures for safe manipulation:		
7.1.1	Recomendations:		
	a) Workers handeling the product have to get familiar with health and saf (enclosing of leaked mixture, sealing of demaged packages and so on), f on) and limit the production of aerosol and dust.		
	 b) Obey measures for prevention of manipulation with incompatible substances or mixtures (see part 10) in common areas. c) Store in original closed packages in temperature from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do 		
	not expose to direct sunlight or other heat sources.		
7.1.2	 d) Prevent the contamination of environment, i.e. leak into canalization, s Instructions for general hygiene of work: 	surface of underground water and soll.	
1.1.2	a) Do not eat, drink or smoke on work areas.		
		ntualy use regeneration hand cream	
	 b) After working with product wash your hands with soap and water, eventualy use regeneration hand cream. c) Before entering dining areas, remove contaminated clothing and protective equipment. 		
7.2	c) Before entering dining areas, remove contaminated clothing and protective equipment. Conditions for safe storage of substances and mixtures including incompatible substances and mixtures: Store in dry and well-ventilated storages in original closed packages in temperatures from +5 to +25 °C, do not expose to temperature under 0 °C (not even in short term). Do not expose to direct sunlight or other heat sources. Prevent any contact with oxidazing substances, strong acids and bases. Do not store with food, drinks and feed. The product is not a flamable liquid according to ČSN 65 0201.		
7.3	Specific end use: see part 1.2; coating procedure and recomendations and documentation.		
8.	Section 8: Exposure controls / personal protection		
8.1	Control parameters:		
	Exposure limits EH40/2005 (WELs):	Not Assigned

8.2 E

Ensure adequate ventilation. Ensure protective equipment is worn while working with the product. Contaminated work clothes can be reused after thorough cleaning. Wash your hands and face with soap and water after use. Do not eat, drink or smoke while working with the product.

8.2.1 Appropriate engineering controls: Observe the usual precautions to protect the health and well-ventilated.

8.2.2 Individual protection measures, such as personal protective equipment:

Occupational exposure is governed by Directive 89/686/EEC therefore any use of personal protective equipment must be in accordance with this Regulation.

a) Eyes and face protection: Suitable safety goggles (EN 166), face shiled.

b) Skin protection: Common safety clothing with long sleave and shoes; take of the contaminated clothing and wash your skin with soap and water.

b-1) Hands protection: suitable protective gloves (made from rubber - according to EN 374), wash your hands with soap and water after work, use reparing hand cream.

c) Airways protection: with proper area ventilation not required. When spraying, face half-shiled is recomended for gass filtration (EN 405) or quarter-shiled with gass filter (EN 140, EN 141).

d) Heat hazard: Special attention must be paid to construction of personal protective measures, when specifying protective measures for protection against materials, which are considered to be heat hazard. Not relevant for this product.

8.2.3 Environmental exposure controls: Avoid infiltration of surface and groundwater and soil.

9.	Section 9: Physical and chemical properties			
9.1.	Information on basic physical and chemical properties			
	a) State	low viscosity liquid		
	b) Color	milky white		
	c) Odour:	Characteristic, after the raw materials used		
	Odor threshold:	Not specified		
	 d) Melting/Freezing point (temperature range) (°C): 	Not specified		
	e) Boiling point or initial boiling point and boiling range (°C)	approximately 100		
	f) Combustibility:	non-flammable liquid		
	g) Explosion limints: upper limit (% volume):	Not specified		
	lower limit (% volume):	Not specified		
	h) Point of ignition:	Not specified		
	i) Temperature of self-ignition:	Not specified		
	j) Temperature of decomposition (°C):	Not specified		
	k) pH (23 °C)	5,0 - 8,0 (23 °C)		
	I) Kinematic viscosity:	Not specified		
	m) Solubility (23 °C)			
	- with water:	unlimited miscibility with water		
	- with fats:	Not specified		
	n) Partition coefficient n - octanol/water:	Not specified		
	o) Steam pressure (20 °C):	Not specified		
	p) Density and/or relative density (20 °C):	approximately 1,0 g.cm ⁻³ (20 °C)		
	q) Relative viscosity of steam (at °C):	Not specified		
	r) Particles characteristics:	Not specified		
9.2	Other information:			
9.2.1	Information about class of physical hazard:	is not relevant		
9.2.2	Other safety characteristics			
	Evaporation rate:	Not specified		
	Dynamic viscosity:	Not specified		
	Explosive properties:	Not specified		
	Oxidizing properties:	Not specified		
	VOC	21,5 g/l		
10.	Section 10: Stability and reactivity			
	Product is stable under recommended storage and handling cond			
10.1	Reactivity: Product is not reactive under recommended storage an	nd handling conditions.		
10.2	Chemical stability: Product is stable under recommended storage	and handling conditions.		
10.3	Possibility of hazardous reactions: In case of contact with substances reacting dangerously with water.			
10.4	Conditions to avoid: Temperatures below 0 °C and above 100 °C storage temperature reduce life of the product.	cause degradation of the product. Temperatures above recommended		
10.5	Incompatible materials: Substances reacting with water, strong ox	ridizing agents.		
10.6	Hazardous Decomposition Products: Carbon monoxide, SiO ₂ , chl	orine and nitrogen compounds may form during burning.		
11.	Section 11: Toxicological information			
11.1	Information about hazard classes acording to (ES) č. 1272/2008			
	a) acute toxicity:			
	- LD ₅₀ , oral, rat (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information		
	- LD ₅₀ , dermal, rat or rabbit (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information		
	- LC ₅₀ , inhalation, rat, for aerosols or particles (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information		
	- LC ₅₀ , inhalation, rat, for gases and vapours (mg.kg ⁻¹):	the classification cirteria are not met based on avilable information		
	b) corrosivity/skin irritation:	Causes skin irritation.		
	c) serious eye damage / eyes irritation:	the classification cirteria are not met based on avilable information		
	d) sensitivity of airways / sensitivity of skin:	the classification cirteria are not met based on avilable information		
	e) germ cells mutagenicity:	the classification cirteria are not met based on avilable information		
	f) carcinogenicity:	the classification cirteria are not met based on avilable information		
	g) toxicity for reproduction:	the classification cirteria are not met based on avilable information		
	h) toxicity for specific organs - single exposure:	the classification cirteria are not met based on avilable information		
	i) toxicity for specific organs - multiple exposures:	the classification cirteria are not met based on avilable information		

	j) hazards while inhaled: Human experience:	the classification cirteria are not met based on avilable information No detrimental effects were found upon compliance with the
		prescribed safety measures.
	Tests on animals:	Were not performed
1.1.1	Information for each hazard class or breakdown:	see above
1.1.2	Toxicological properties of mixture	not relevant
	Triethoxyoktylsilane (ES: 220-941-2); Dodekan-1-ol, ethoxylated (ES: 500-002-6) a Oktamethylcyklo tetrasiloxane (ES: 209-136-7)	see part 8
1.1.3	If enough information from substance/mixture trials exist, it might be necessary to sum up results of used studies, for example according to exposure run	not relevant
1.1.4	If the classification criteria are not met for specific hazard class, information explaining the justification should be stated.	relevant concentration limits were not exceeded
1.1.5	Information about likely exposure run	no effects on human health are known
1.1.6	Symptoms corresponding to physical, chemical and toxicological features	no effects on human health are known
1.1.7	Belated and immediate effects and chronical effects of short/long term exposure	no effects on human health are known
	Interactive effects	unknown
	Lack of specific data	not relevant
	Mixtures	see part 8
11.1.11	Mixtures information compared to substance information	
	 Substances in the mixture can react with each other inside of a body a It is necessary to consider, if concentration of each substance is sufficient. 	
	a) if the information are doubled, they are listed only once for a substance as a whole, for example when two different substances are causing vomiting and diarrhea;	Not relevant for this mixture.
	b) if it is not likely the effects will appear with current concentrations, for example when weak irritating substance is disolved in non-irritating solution to a level under certain concentration;	Not relevant for this mixture.
	c) if the information about mutual effects of substances in the mixture are unavilable, no assumptions will be listed and instead effects on healtf of each substance will be listed.	see part 8
11.1.12	Additional data:	None
1.2	Other hazards information	
1.2.1	Features causing disruption of endocrinal system	Not relevant for this mixture.
1.2.2	Other information	None
2.	Section 12: Ecological information	
2.1	Toxicity	
	Acute toxicity for water organisms:	
	LC_{50} , 96 hours, fish (Pimephales promelas):	Not set
	LC_{50} , 48 hours, (Daphnia magna):	Not set
	IC_{50} , 72 hours, algae:	Not set
2.2	Persistence and degradability:	Not set
2.3	Bioaccumulative potential:	
2.4	Mobility in soil:	Not set
12.4	Results of PBT and vPvB	It was not determined, the blend is miscible with water. The mixture contains OKTAMETHYLCYCLOTETRASILOXANE, which was included in the List of Substances of Very High Concer subject to Authorisation (Annex XIV of REACH) by Commission Regulation (EU) 2018/35 of 10 January 2018.
2.6	Features causing disruption of endocrinal systém	Unknown for this mixture
2.7	Other adverse effects:	See Section 2
	Additional data:	Water hazard class 1. Low water hazard (Self-assessment). The product must not leak to surface and groundwater. Notify compete authorities immediately in case of an accident.
3.	Section 13: Disposal considerations	
3.1	Methods of waste management:	
	a) Appropriate methods of substance, mixture and contaminated packag	ing disposal: Proceed in accordance with applicable regulations. Do o the sewer is permitted after neutralization under conditions laid do

c) Avoidance of disposal through sewer: Discharge into the sewer is permitted according to the conditions laid down by water authorities.

d) Special precautions for the recommended waste management: Avoid contact with skin and eyes.

4.	Section 14: Transport information	
4. 4.1	UN number or ID number	Not specified
14.1	-	Not specified
	Required shipping label:	
	ADR/RID/ADN:	Not specified
	IMDG:	Not specified
	ICAO TI:	Not specified
14.2	Proper name of the United Nations for the shipment	
	ADR/RID/ADN:	Not specified

IATA International Air Transport Association.

GHS Globally Harmonized System of Classification and Labelling of Chemical substances.

c) important references to literature and data sources

Initial data sources are safety data sheets of the inherent (components).

d) in case of mixture, statement about evaluation method used for classification according to article 9 of directive (ES) number 1272/2008 For evaluation purposes, principles of extrapolation were used. Calculation methods.

e) List of H-sentences, whose full form is not listed in other parts.

H226	Flammable liquid and vapour.
H301	Toxic if swallowed.
H302	Harmful if swallowed.
H310	Fatal in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H361f	Suspected of damaging fertility.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
EUH071	Causes burns to the respiratory tract.

Guidelines for training:

As required by national legislation.

Recommended restrictions on use (i. e. non-statutory recommendations by supplier):

Product should not be used for other purposes than specified (see section 1.2). Because specific conditions of use are beyond supplier's control it is responsibility of the user to adapt notifications to local law and regulations. Safety information describe the product with regard to safety and can not be considered technical information about the product.
